

Version 1.10.0 Detailed Release Notes

Spec. Reference	Spec. Version	Spec. Section	List Ref.	ABMS Module	Specification Description	Specification Details
180003	V01	1	668	Corporate Responsibility	Non Compliances	Amend NCP Details screen.
180003	V01	2	668	Corporate Responsibility	Non Compliances	Add new mapping field.
180003	V01	3	668	Corporate Responsibility	Non Compliances	Amend layout on NCP Details screen.
180003	V02	1	670	Corporate Responsibility	Corrective Action Plan	When click at number of CAPR hyperlink from Non Compliance tab then open CAPR new dialog. (yellow highlight)
180003	V02	2	670	Corporate Responsibility	CSR Notes	Amend Audit Notes layout.
180003	V02	3	670	Corporate Responsibility	Corrective Action Plan	Amend Correct Action Plan – Evidence library screen.
180003	V03	1	678	Corporate Responsibility	Corrective Action Plan	Add new function for Print Preview on CAPR Library screen to print NCP - CAPR Report.
180003	V04	1	714	Corporate Responsibility	CSR Audits	Add new check box for Solution time scale and auto calculate Solution Target Date to show as default.
180001	V01	1	667	Corporate Responsibility	Legal Articles Library	New sub menu and new screen for Legal Law master data.
180001	V01	2	667	Corporate Responsibility	Legal Articles Library	Allow user to maintain data of Legal Law.
170034	V05	1	710	Licensing	PDEV_License_Mgr_PDEV007	Add display Style Code and Licensor Ref. on License Management.
150217	V04	1	709	Licensing	SORD_Contractual_Sampling_Tracking	Add Licensor Ref filter and display in grid.
170064	V08	1	721	Material Testing	Testing Schedule	Amend Component Element Type when request from Testing Template to show data from store procedure and not allow to change.
170064	V08	2	721	Material Testing	Testing Schedule	Amend layout of Testing schedule list.
170064	V08	3	721	Material Testing	Testing Schedule	Amend query in Testing Report selection dialog.
170070	V02	1	720	Material Testing	Testing Template	Add new mapping field when insert new record for Component element.
170070	V02	2	720	Material Testing	Testing Template	Add new background process to delete Component Element.
170070	V02	3	720	Material Testing	Testing Template	Add new control for Component Element and new service to update Component Element data.
170061	V01	1	611	Material Testing	MAST Component Element	Add new menu and new screen for Component Element master data
170061	V02	1	613	Material Testing	MAST Component Element	Add condition to show message error when duplicate data
170068	V01	1	633	Material Testing	MAST Material Properties	Add new tab for Properties on Material Type dialog.
170068	V01	2	633	Material Testing	MAST Material Properties	Add new tab for Properties on Material Type dialog.
170068	V01	3	633	Material Testing	MAST Material Properties	Add new dialog for Material Properties details link to Material Properties.
170062	V01	1	612	Material Testing	MAST MatType - Component Element	Add new tab for Material Type master data. "Component Element"
170062	V01	2	612	Material Testing	MAST MatType - Component Element	Allow user to maintain multiple Component Element to each Material type.
170057	V02	1	598	Material Testing	MAST Testing Method List	New screen for Testing Method list
170057	V03	1	602	Material Testing	MAST Testing Method List	Amend value return from UOM drop down list.
170057	V03	2	602	Material Testing	MAST Testing Method List	Amend mapping value of field UOM_Code to be UOM_ID
170057	V03	3	602	Material Testing	MAST Testing Method List	Add condition before flag delete Testing Req No.
170057	V03	4	602	Material Testing	MAST Testing Method List	Add new control "Required parameter" check box in Testing Method Details screen.
170057	V03	5	602	Material Testing	MAST Testing Method List	Add tab "General Data" in Testing Method Details.
170057	V03	6	602	Material Testing	MAST Testing Method List	Add new tab for Required parameter
170057	V04	1	636	Material Testing	MAST Testing Method List	Amend screen for Testing Method General Tab.
170057	V04	2	636	Material Testing	MAST Testing Method List	Amend service and table structure on Testing Requirement Parameter.
170057	V04	3	636	Material Testing	MAST Testing Method List	Hide Parameter Required tab.
170057	V04	4	636	Material Testing	MAST Testing Method List	Add new tab for Parameter Requirement Details and show data only.
170058	V02	1	600	Material Testing	MAST Testing Source	New screen for Testing Source master data
170056	V01	1	597	Material Testing	MAST_Laboratory_Account	New "Laboratory" screen for setting master data of laboratory account.
170059	V01	1	605	Material Testing	Material Type - Testing method list	Amend Material Type screen for link to new dialog to show Testing Method list for that Material Type.
170059	V01	2	605	Material Testing	Material Type - Testing method list	Material Type – Testing Method will show data of Material and Testing Method which show cross reference data from Testing Method master data.
170059	V01	3	605	Material Testing	Material Type - Testing method list	Allow user edit / delete data only Testing Method which specific to that Material Type only.
170059	V02	1	638	Material Testing	Material Type - Testing method list	Amend layout of MAST204 Material Type – Testing Method Details screen.
170059	V02	2	638	Material Testing	Material Type - Testing method list	Amend data source.
170059	V02	3	638	Material Testing	Material Type - Testing method list	Hide Add / Edit / Delete button and show data only.
170067	V01	1	626	Material Testing	PDEV007 - Testing	Add new tab for Testing on PDEV007
170065	V01	1	620	Material Testing	Testing Report	Add new screen for Testing Report Library screen.
170065	V01	2	620	Material Testing	Testing Report	Add new dialog for Testing Report entry dialog.
170065	V02	1	674	Material Testing	Testing Report	Add new process when load data to mapping in Testing Report list for insert mode. Get data cascade with LabCode from header.
170065	V02	2	674	Material Testing	Testing Report	Add new background process to update Testing Report to Testing Request line for insert mode
170065	V02	3	674	Material Testing	Testing Report	Add condition to Get Testing Request within the same lab code from header only for update mode.
170065	V02	4	674	Material Testing	Testing Report	Add new background process to update Testing Report to Testing Request line for update mode.
170065	V02	5	674	Material Testing	Testing Report	Add new background process to update Testing Report to Testing Request line for delete mode.
170065	V02	6	674	Material Testing	Testing Report	Remove Copy, Upload, Download button from main grid.
170065	V02	7	674	Material Testing	Testing Report	Amend label for WL No filter control.
170065	V02	8	674	Material Testing	Testing Report	Add new filter for Lab.
170065	V03	1	693	Material Testing	Testing Report	Add process to check validate Date on entry screen
170064	V01	1	615	Material Testing	Testing Schedule	New menu in Range Plan - Product Library for Testing.
170064	V01	2	615	Material Testing	Testing Schedule	New screen for Testing Request Schedule show list of Testing methods per Style and allow user to maintain data.
170064	V01	3	615	Material Testing	Testing Schedule	New screen for Testing Request From allow user to create new Testing and maintain data.

Version 1.10.0 Detailed Release Notes

Spec. Reference	Spec. Version	Spec. Section	List Ref.	ABMS Module	Specification Description	Specification Details
170064	V02	1	621	Material Testing	Testing Schedule	Add details of Testing Report Reference (link to Testing Report library screen).
170064	V03	1	623	Material Testing	Testing Schedule	Cancel process insert new line in grid Testing Details section on Testing Request form.
170064	V03	2	623	Material Testing	Testing Schedule	Amend process for Add new record of Testing Details in Testing section on Testing Request form
170064	V04	1	631	Material Testing	Testing Schedule	Add new background process to insert new record into ABMS_Notes after insert new record into table [dbo].[TestingRequest_Lines]
170064	V04	2	631	Material Testing	Testing Schedule	Amend layout in Testing Schedule list screen.
170064	V04	3	631	Material Testing	Testing Schedule	Add details of Note details section in Testing Request Form screen.
170064	V04	4	631	Material Testing	Testing Schedule	Add details of Image and Document section in Testing Request Form.
170064	V04	5	631	Material Testing	Testing Schedule	Add check business policy.
170064	V05	1	645	Material Testing	Testing Schedule	Add new control of Material Properties and Material Properties details in Testing Details entry screen.
170064	V05	2	645	Material Testing	Testing Schedule	Amend data source of Method Code auto complete dialog in Testing Details entry screen.
170064	V05	3	645	Material Testing	Testing Schedule	Click at thumbnail and show full image.
170064	V05	4	645	Material Testing	Testing Schedule	Click at icon or style link then open PDEV040 or PDEV007.
170064	V05	5	645	Material Testing	Testing Schedule	Add new function for Add Testing from Template.
170064	V06	1	648	Material Testing	Testing Schedule	Add process to check duplicate before insert data from template
170064	V07	1	673	Material Testing	Testing Schedule	Add new background process when select Mtl Receive Date to auto set the same date into other line. (for other line have Receive Date = " only.)
170064	V07	2	673	Material Testing	Testing Schedule	Disable Result drop down list on screen ID RBLD027. (Show data cascade with Testing Report only.)
170064	V07	3	673	Material Testing	Testing Schedule	Add new background process to update Testing Report and result data into Testing Request after insert testing report completed.
170064	V07	4	673	Material Testing	Testing Schedule	Add new process to get Mtl Received Date from user selected in one line to show in other line if other line have value of Mtl Received Date = ""
170064	V07	5	673	Material Testing	Testing Schedule	Add new background process to update Testing Report no and Testing Result back to Testing Line after create new Testing Report. (When click Add new Testing Report from RBLD027)
170064	V07	6	673	Material Testing	Testing Schedule	Disable Result drop down list on screen ID RBLD027 dialog entry. (Show data cascade with Testing Report only.)
170070	V01	1	641	Material Testing	Testing Template	Add new menu and new screen for Testing Template master data
170039	V02	1	599	PO Authorization	FICO PO Authorization with Costing	Add check box 'Show only cost element value > 0' on dialog 'STD Costing Details' and default ticked.
160135	V18	1	640	Product Management	Create blank slot from image	Add new filter for Slot description and Cutting pattern name
170037	V10	1	630	Product Management	Factory Plan Stock	Add new filter for Factory Ref. in list page.
180013	V01	1	695	Product Management	PDM Category master	Add new menu and new screen for PDM Category master data
170046	V06	1	590	Product Management	PDM Center	Add details to fix bugnet. (Need in 1.9.0)
170046	V06	2	590	Product Management	PDM Center	Amend background process to get data in Stage section.
170046	V06	3	590	Product Management	PDM Center	Amend data source of PlanGroup drop down. (Outstanding on screen ID PDEV058, PDEV061)
170046	V06	4	590	Product Management	PDM Center	Amend data source of Designer drop down.
170046	V06	5	590	Product Management	PDM Center	Add new option to print Report Filter in Contract sheet.
170046	V06	6	590	Product Management	PDM Center	Add new control for auto complete when select Contact in PDM header.
170046	V07	1	614	Product Management	PDM Center	Add new icon for CAD revision and condition to show Stage button
170046	V08	1	639	Product Management	PDM Center	Add new filter Slot Description, Styles Name, Cutting Pattern Name on PDM screen. (Page 114 - 118)
170046	V09	1	680	Product Management	PDM Center	Add new background process to insert data into temp table when select line to e-mail instead of pass value from UI.
170046	V09	2	680	Product Management	PDM Center	Add data filter into "Select Product to print Contact Sheet Report".
170046	V10	1	691	Product Management	PDM Center	Amend label and dialog name.
170046	V10	2	691	Product Management	PDM Center	Add new process to show data as image view.
170046	V11	1	698	Product Management	PDM Center	Add condition to show Session Date and Session Time when select PDM Category.
170046	V11	2	698	Product Management	PDM Center	Add condition to show or hide Session Date and Time for update / display mode.
170046	V12	1	702	Product Management	PDM Center	Add process to insert data into temp table when select line on PDEV059.
170046	V12	2	702	Product Management	PDM Center	Amend UI flow by after user select image then force user to back to Details view to insert note before Save
170046	V13	1	715	Product Management	PDM Center	Amend properties of filter.
170046	V13	2	715	Product Management	PDM Center	Add new mapping field to show in Product selection screen.
170046	V14		722	Product Management	PDM Center	<ul style="list-style-type: none"> - Cancel process auto insert record into temp table when select line or image. - Add new service to insert data into temp table in control below. 1. Click Image View button. 2. Click Details View button. 3. Click Show bigger image check box. 4. Click Select change page number. 5. Click Change number per paging.
		1				
160061	V02	1	683	Product Management	PDM Range Plan	Add data filter section on PDEV042.
160061	V02	2	683	Product Management	PDM Range Plan	Amend data filter section when add product into PDM, to use the same all filter control as PDM Center.
160061	V02	3	683	Product Management	PDM Range Plan	Amend data filter section when select product to e-mail, to use the same all filter control as PDM Center.
160061	V02	4	683	Product Management	PDM Range Plan	Add data filter section when select product to print contract sheet report.
160061	V03	1	694	Product Management	PDM Range Plan	Amend UI by change label.
160061	V03	2	699	Product Management	PDM Range Plan	Add new process to show data by Image View.
160061	V04	1	699	Product Management	PDM Range Plan	Add condition to show Session Date and Session Time when select PDM Category.

Version 1.10.0 Detailed Release Notes
