

Version 1.10.1 Detailed Release Notes

Spec Tracking #	Version	List Ref.	No#	ABMS Module	Specification Description	Specification Details
160099	V05	1	746	Blank Slots	Fastening Categories	Amend data source Fastening type cascade Product category of Product line
180019	V01	1	737	Consumer Groups	Age Group	Add new mapping field to show Product Category in Consumer Group list.
180019	V01	2	737	Consumer Groups	Age Group	Add new mapping field to show Product Category in Age Group
180019	V01	3	737	Consumer Groups	Age Group	Add new control in Age Group setup dialog for assign Product Category.
180019	V01	4	737	Consumer Groups	Age Group	Add process to check Product Category in Size System cascade with Product Category in Age Group when setup Size Range.
180016	V01	1	732	Master data	Construction Components	Add product category into component master data.
180016	V01	2	732	Master data	Construction Components	Add flag for Style Upper.
180016	V01	3	732	Master data	Construction Components	Extend Component code to be char(2).
160085	V02	1	745	Master data	Fastening Categories	Add product category (Multiple selection)
180017	V01	1	733	Master data	Product line	Amend Material Type dialog selection when get Material Type by check product category and flag style upper in component matching with Product Category in Product Line.
170064	V09	1	735	Material Testing	Testing Schedule	Amend data source of Component control to filter data by product category from Style.
150205	V10	1	741	Planning group	Planning Group Create	Insert mode - Amend query when get data from Profile to insert into Plan Group by check Age Group cascade with Product Category.
150205	V10	2	741	Planning group	Planning Group Create	Update mode – Amend data source of Age Group to check Product category cascade with Product Category in Plan Group.
150205	V10	3	741	Planning group	Planning Group Create	Add background process to delete Age Group and Consumer Group cascade with Product Cate when delete product line.
150211	V06	1	743	Planning group	Slot Maintain	Amend data source of Consumer Group drop down cascade with ProdCateID from Product Line. Amend data source of Age Group drop down with ProdCateID from Product Line.
150201	V07	1	738	Product Profiles	Maintain Profile	Add condition to get only Consumer Group which set up for Product Category in Range set only.
150201	V07	2	738	Product Profiles	Maintain Profile	Add process to delete Age Group cascade with Consumer Group deleted.
150201	V07	3	738	Product Profiles	Maintain Profile	Add condition to get only Age Group which set up for Product Category in Range set only.
150201	V07	4	738	Product Profiles	Maintain Profile	Add process to delete Consumer Group and Age Group if delete Product Cate cascade with Product line deleted.
180004	V07	2	744	Style Maintenance	Age group	Amend data source of Age Group drop down list in PDEV40 cascade with ProdCateID from slot and Consumer Group.
180004	V07	3	744	Style Maintenance	Age Group	Amend data source of Age Group drop down list in PDEV052 cascade with ProdCateID in style.
160099	V04	1	742	Style Maintenance	Blank Slots	Amend data source of Consumer Group drop down cascade with ProdCateID from Product Line.
160099	V04	2	742	Style Maintenance	Blank Slots	Amend data source of Age Group drop down with ProdCateID from Product Line.
180004	V07	1.00	744	Style Maintenance	Consumer Group	Amend data source of Consumer Group drop down list in PDEV40 cascade with ProdCateID from slot.
170057	V05	1	734	Style Maintenance	Testing Method	Add condition to check Product Group and Product line cascade with Product Category in Component.
180018	V01	1	736	System Admin	Admin Roles	Add web config 'Roles_Admin'
180018	V01	2	736	System Admin	Admin Roles	Function Management
180018	V01	3	736	System Admin	Admin Roles	- Add column 'IsAdminMaintain' Roles and Permission - Add business for 'Roles_Admin' when maintain roles
180020	V01	1	740	System Admin	Password Policy	New "Forget Password" process
180020	V01	2	740	System Admin	Password Policy	New "Check Expire Password" process
180020	V01	3	740	System Admin	Password Policy	Amend "Change Password" Process
160082	V09	1	739	System Admin	User Access	Cancel Reset Password Process
160082	V09	2	739	System Admin	User Access	Amend control on User Management dialog 2.1 Amend "Change Password" control 2.2 Add new "Notice Davs" control
160082	V09	3	739	System Admin	User Access	In insert mode: Amend validate password and confirm password size length
160082	V09	4	739	System Admin	User Access	In insert mode: Add more validate password process
160082	V09	5	739	System Admin	User Access	In insert mode: Amend save process
